Title: Create version control account on GitHub and using Git commands to create repository and push your code to GitHub.

Assignment No. 2-a

The image consists of two screenshots from a Windows 10 desktop environment. The top screenshot shows the GitHub login page at `github.com/login`. It features the GitHub logo, a 'Sign in to GitHub' heading, and a login form with fields for 'Username or email address' (containing `vaishnavideshmukh244@gmail.com`) and 'Password' (masked with dots). A 'Sign in' button is below the fields, and a link to 'Create an account' is at the bottom. The bottom screenshot shows the GitHub homepage at `github.com`. The header includes a search bar and navigation links: 'Pull requests', 'Issues', 'Codespaces', 'Marketplace', and 'Explore'. The main content area has a 'Discover interesting projects and people to populate your personal news feed.' section with an 'Explore GitHub' button. On the right, there's a 'Latest changes' section with a dropdown menu open, showing options like 'New repository', 'Import repository', 'New codespace', 'New gist', 'New organization', and 'New project'. The bottom of the page shows the footer with copyright information and links to 'Blog', 'API', 'Terms', 'About', 'Training', 'Privacy', 'Shop', 'Status', 'Docs', 'Contact GitHub', 'Security', and 'Pricing'.
